

Notes - 6/4

Monday, June 04, 2012 10:06 AM

76

[In *40*/1237 at 10:00 today.]

Agenda:

- More ES6 classes alignment discussion (attached)
- Concern about lack of declaration.

Things which we are comfortable being errors;

- Read without write a member is a property

- Details of short function syntax
- Recursive type inference rules
- Release planning (attached)
- Continue review of [design items spreadsheet](#)
- Others?

```

//
Eknodule Score.Packages.Installer (
  export var installTemplates = true;
  Jun cùn load files : string[] ? [ <any>files ] : <any>files;
  3 export function load(files: string, options?: IInstallerLoadOptions = {}): any {
  var dfd: IQueryDeferred = new jQuery.Deferred();
  var list: string[] = typeof files == 'string' ? [ <any>files ] : <any>files;
  var root = typeof options.root == 'string' ? options.root : '';
  var cache = typeof options.cache == 'boolean' ? options.cache : false;
  export var installTemplates = true;
  var depends: string[] = [];
  _addDependencies(depends, list, root).then(function () {
