Notes - 10/21/2013

Monday, October 21, 2013   10:05 AM

Engineering update
Design Spec update
  • Changes to enum

ex 1)
```
class C {
  z: number;
  constructor() {
    var x1 = (y) => this.z;
    var x2 = (y) => super.z;
  }
}
```

// super should only be valid where 'this' points at the current instance

ex 2)
```
function fn(x = () => this) {

}
```

// does var _this = this get put? should be first line of function before the initializers

```
var x = function (y: number) { return x; }
```
//currently: (y:number)=>any
//recommended: any
